As part of The Eco Collection, we are proud to introduce the

RAMBO® NATURA SUMMER SHEET

made from natural hemp & organic cotton.

HEMP

Hemp is one of the oldest plants in the world and is a highly sustainable crop that leaves no ecological footprint.

Hemp is highly renewable and can be harvested several times per year. This organic plant is grown without the use of any pesticides or chemicals and therefore does not pollute the soil it's grown on.

Hemp boasts a range of material benefits

As our first natural fabric blanket, the Rambo Natura is the ideal choice for horses with sensitive skin or coat health issues.

ORGANIC COTTON

Organic cotton does not use any chemicals in the process of agricultural production nor in the process of creating the fabric.

The organic cotton we have sourced has OCS and GOTS certification to reinforce its organic heritage and prove its traceability. Organic cotton is naturally soft, highly breathable, lightweight and very comfortable against the horse's skin.

The combination of these fabric components makes our Rambo Natura Summer Sheet a highly sustainable solution providing ultimate comfort for the horse.
